

**LAWRENCE B.
PALEVSKY MD**

HEALING THE WHOLE CHILD. NATURALLY.

Holistic Child Health Newsletter January 2018

Dear Friends,

Welcome to the Holistic Child Health Newsletter.

The goal of my holistic pediatric practice, and of this newsletter, is to inform and support parents to become more empowered as the primary health care providers for their children. Extending far beyond Western medicine's conventional treatments, holistic medicine and mindful parenting allow us to boost children's natural immunity, support their optimum health and wellness, safely heal any illnesses, and prevent disease-without dangerous side effects. Holistic medicine provides us with the tools to nurture the physical, emotional, social and spiritual health of your children.

Over the coming months and years, I intend to use this newsletter to address some of your concerns as parents, share information that you might want to add to your knowledge base, and inform you of important issues and current events that are happening in the news, and in your area.

Together we can heal the whole child. Naturally.

Yours in Health,

Lawrence B. Palevsky, MD

THE TRUTH ABOUT VACCINES

Don't Miss This Opportunity...
Starts January 25th!

We're about to witness the
greatest health debate of the 21st century,
and you're definitely going to want to have
a front row seat for this.

Click Here to Get FREE ACCESS NOW:

<http://bit.ly/2mMfrx7>

It's a topic that lights a fire under people on both sides of the issue. Some say they're mandatory, and some say they're dangerous. Tensions are rising from both camps, and our children are the ones caught in the middle. The topic?

VACCINES

No matter where you fall on the spectrum of whether you think vaccines are helpful or harmful... the reality is that it's become one of THE hot-button issues of our time. People are truly passionate about their positions, and that is a huge part of the problem. When emotion interferes with facts, the truth gets lost in the shuffle.

Filmmaker and health freedom advocate Ty Bollinger has jumped head first into the choppy waters of the vaccine debate to investigate BOTH sides and find out what parents need to know to make the right decision for their kids. He's about to release the biggest, most comprehensive series ever created on the topic of vaccines, and **you need to see it.**

There's new information here that you, your neighbors, and everybody in your community needs to know about.

Click Below and get the full details about this explosive new documentary series and how you can watch the whole thing for FREE starting JANUARY 25th.

<http://bit.ly/2mMfrx7>

Here's to finding the truth...We can all agree that we just want our children to be safe, and that we don't want to take chances with their health. Vaccine safety is a topic every parent needs to be informed and educated about -- pros and cons -- in order to make the best possible decision for your family.

Balance Yoga and Healing
680 East Jericho Tpke. Huntington Station, NY 11746
Thursday, January 25, 7-9pm
\$40 in advance, \$50 at the door.

In this workshop, you will hear discussions on vaccine science:

- What is current vaccine science and who is funding it and doing it?
- How do vaccines work, what have they done, and do they do what we're told they do?
- What role do vaccine ingredients play when injected into infants and children?
- What do the ingredients do to our children once they're injected?
- Do vaccines contribute to the development of chronic illnesses in children?
- How do our children get into school if they're not vaccinated?
- How does the immune system work in babies and children?

Attendees will hear some of the answers to these questions, along with the research that questions whether vaccines are safe and effective, and whether the scientific process is even at work to prove the answers to these questions. Attendees will also be asked to look at the issues that drive us to make the decisions we make, many of which come to us through fear, bullying, uncertainty, and a lack of knowledge, and to perhaps think alternatively about how illnesses occur and disappear.

ABOUT DR PALEVSKY

Dr. Palevsky is a board certified pediatrician who utilizes a holistic approach in his work with children and families.

Dr. Palevsky received his medical degree from the NYU School of Medicine in 1987, completed a 3-year pediatric residency at the Mount Sinai School of Medicine in New York City, and enrolled in a 1-year fellowship training program in the out-patient department at Bellevue Hospital/NYU School of Medicine.

Since 1991, his clinical experience has included working in pediatric emergency medicine at Our Lady of Mercy Hospital in the Bronx, NY, serving as the Chief of the Pediatric Acute Care Unit at Lenox Hill Hospital in NYC, and working in in-patient and out-patient pediatric medicine, neonatal intensive care medicine, and newborn and delivery room medicine.

Dr. Palevsky has also worked in a conventional, holistic and integrative pediatric practice at the NYC Beth Israel Center for Health & Healing- an integrative and complementary care medical facility.

Currently, he runs his own holistic pediatric practice in Northport, NY and Manhattan. Dr. Palevsky teaches holistic integrative pediatric & adolescent medicine to parents, and medical and allied health professionals, both nationally & internationally.

Dr. Palevsky is a former Fellow of the American Academy of Pediatrics, Past-President of the American Holistic Medical Association, and a diplomate of the American Board of Integrative Medicine (ABIHM).
