

Dear Friends,

**Welcome to the Holistic Child Health Newsletter.**

The goal of my holistic pediatric practice, and of this newsletter, is to inform and support parents to become more empowered as the primary health care providers for their children.

Extending far beyond Western medicine's conventional treatments, holistic medicine and mindful parenting allow us to boost children's natural immunity, support their optimum health and wellness, safely heal any illnesses, and prevent disease-without dangerous side effects. Holistic medicine provides us with the tools to nurture the physical, emotional, social and spiritual health of your children.

Over the coming months and years, I intend to use this newsletter to address some of your concerns as parents, share information that you might want to add to your knowledge base, and inform you of important issues and current events that are happening in the news, and in your area.

Together we can heal the whole child. Naturally.

Yours in Health,

***Lawrence B. Palevsky, MD***

No one wants to be sad, right? What if there were a magic potion to keep everything easy, comfortable, and happy? Would you take it? Travel to the land of Sangati where Asha and her family were praying for rain during a mysteriously dry period that was causing everything to fall out of balance, and her grandmother to be ill. Little did she know that the Sky Beings in charge of the weather and natural cycles were all under a happiness spell. Indra had forgotten that her tears were important, however, not only to her, but to the the very land below. Find out how she breaks the spell, saves Asha,

**her family, and heals the land with the sensitivity of her heart. Written by New York Times and international bestselling author and holistic psychiatrist, Kelly Brogan MD and her daughter, this story is offered as support for parents seeking to create room for feelings. Making room for feelings involves the acceptance of seemingly negative emotion as meaningful and even healing. The greatest gift we can give to our children, and to this planet, is permission to feel it all.**
